Disability Planning Organization of Kansas, Inc., with the cooperation of its Providers, tries to maintain the most current information available. We encourage you to contact ALL the listed providers for the services you are seeking. Addresses may be misleading; they may already offer or be willing to offer services in your area.

November 2019
Targeted Case Management
Case Managers help the person and their support network navigate the world of services and supports. They can help identify, select, obtain, and coordinate paid and unpaid services to enhance the person’s independence, integration, and productivity by using their Person Centered Support Plan as a guide.

Agency-directed Personal Care Services
An agency-directed attendant care service supporting daily living needs of individuals (children or adults) living in their family home. Services occur at home or in the community assisting the individual. Services might include direct assistance with health care needs, self care activities or tasks promoting independence, productivity, and community integration. Attendant care workers are employed, trained and supervised by the agency chosen.

Overnight Respite for relief to family for overnight. Planned in segments and time limited.

Enhanced Care Services is overnight assistance for repositioning nighttime medication and/or other medically necessary supports.

*For additional information about Self Directing Services see “Self Direction” brochure.

Wellness Monitoring
A registered nurse will visit the individual’s home to evaluate the level of wellness of the individual to determine if medical services recommended by a physician are being utilized properly and if the health of the individual is allowing them to remain in their home without more frequent skilled nursing intervention. Visits are limited to once every 60 days.

providers.

Specialized Medical Care
Long-term nursing support provided to individuals who are medically fragile or technology dependent. The ongoing medical needs of the individual must be met to ensure the person can live outside of a hospital or ICF/MR. Providers of this service must be employed or supervised by a Home Health Agency, be an RN or LPN and be trained with the medical skills necessary to care for and meet the medical needs of the individual.
